

Trumbull Campbell Companies

Powered by Relationships

One of New England's leading independent manufacturer rep firms offering superior sales and application support, start-up and service, parts and comprehensive controls solutions for your HVAC system and building automation needs.

HVAC APPLIED EQUIPMENT SALES

Founded in 2006, Trumbull Campbell offers superior application and sales support for packaged roof top units, air-cooled and water-cooled chillers, air handling equipment, air distribution systems and other HVAC product lines. Trumbull Campbell also provides specifiable, stable and reliable solutions that work to address the complexity of installing and running an HVAC system, while reducing the total cost of ownership.

VRF SYSTEM DESIGN AND SALES

TCA VRF specializes in the design, installation and service of variable refrigerant flow (VRF) air conditioning and heating systems and is the exclusive representative of Lennox VRF in Eastern MA, NH, ME and RI.

BUILDING AUTOMATION

TCA Controls™ provides integrated controls solutions for commercial and industrial HVAC systems. Our experienced team designs, writes programs and installs complete HVAC control systems to meet an owner's building automation needs.

HVAC SERVICE & COMMISSIONING

TCA Solutions provides factory-trained start-up, service and commissioning support for all of the HVAC manufacturers that Trumbull Campbell Associates represents.
