

# Powered by Relationships

Air handling units; packaged rooftops; evaporative condensing chillers and rooftops; split systems; packaged pump systems; **water-source heat pumps in stock locally**

UV cleaning systems; UV germicidal light fixtures for HVAC; lamps and equipment coating

Indoor air purification; bipolar ionization system

Custom air handling units and heat transfer package solutions

Displacement ventilation chilled beams; custom sheet metal accessories for terminal devices

Custom air handling solutions including built-on-site replacement units

Total environmental desiccant dehumidification solutions

Commercial air handling units

Water and air-cooled chillers; free cooling Turbocor, screw and scroll compressors; condensing units

Variable refrigerant flow (VRF) solutions for commercial and light commercial applications

Commercial and light commercial split systems and packaged rooftop units

Integrated noise and vibration solutions

Airflow and pressure measurement controls; fan array controls

Indoor pool dehumidification systems

Humidity and temperature control for indoor grow rooms

Compact, efficient energy recovery units; classroom and school sound sensitive units

Commercial packaged rooftops; air handling units and condensing units

DOAS, MUA, exhaust fans and kitchen ventilation

# Trumbull Campbell Companies

## Powered by Relationships

One of New England's leading independent manufacturer rep firms offering superior sales and application support, start-up and service, parts and comprehensive controls solutions for your HVAC system and building automation needs.

### HVAC APPLIED EQUIPMENT SALES

Founded in 2006, Trumbull Campbell offers superior application and sales support for packaged roof top units, air-cooled and water-cooled chillers, air handling equipment, air distribution systems and other HVAC product lines. Trumbull Campbell also provides specifiable, stable and reliable solutions that work to address the complexity of installing and running an HVAC system, while reducing the total cost of ownership.

### VRF SYSTEM DESIGN AND SALES

TCA VRF specializes in the design, installation and service of variable refrigerant flow (VRF) air conditioning and heating systems and is the exclusive representative of Lennox VRF in Eastern MA, NH, ME and RI.

### BUILDING AUTOMATION

TCA Controls™ provides integrated controls solutions for commercial and industrial HVAC systems. Our experienced team designs, writes programs and installs complete HVAC control systems to meet an owner's building automation needs.

### HVAC SERVICE & COMMISSIONING

TCA Solutions provides factory-trained start-up, service and commissioning support for all of the HVAC manufacturers that Trumbull Campbell Associates represents.

### ONLINE OEM REPLACEMENT PARTS STORE

HVAC Parts Direct is a nationwide online OEM replacement parts distributor for commercial HVAC lines | 1000's of parts in-stock and ready to ship | free ground shipping | BUY ONLINE TODAY
