Virus Mitigation HVAC Products

Increased Fresh Air Inside Building

Air handling units; packaged rooftops; evaporative condensing chillers and rooftops; packaged pump systems

Variable refrigerant flow (VRF) solutions for commercial and light-commercial applications

Custom air handling units and heat transfer package solutions

DOAS, MUA, exhaust fans and kitchen ventilation

Displacement ventilation chilled beams; custom sheet metal accessories for terminal

Custom air handling solutions including build-on-site replacement units

Classroom and school sound sensitive unit ventilators

Compact, efficient energy recovery units offering fast and easy retrofit or closet mounting

Commercial air handling units

Commercial packaged rooftops; air handling units and condensing units

Air Purification

Indoor air purification; bipolar ionization system

Air Flow Measurement

Airflow and pressure measurement controls; fan array controls

Ultraviolet (UV) Lights

UV Light options available for air handling units, energy recovery ventilators and make-up air units, including 4" MERV 15 filtration

Dehumidification

Total environmental desiccant dehumidification solutions

UV cleaning systems; UV germicidal light fixtures for HVAC; lamps and equipment coating

Indoor pool dehumidification systems

Humidity and temperature control for indoor grow rooms
